The Preferred Software Solution for Public Health in Ontario

◇ Profile Public Health

Over 30% of Public Health organizations use Profile.

Profile enables public healthcare agencies to improve healthcare in their regions and reduce social inequities in alignment with healthcare legislation and standards.

Ultimately, Profile fosters a more equitable and effective healthcare system, empowering communities to thrive and contributing to the overall well-being of society.

Promote Healthier Populations

At Intrahealth, we lead healthcare innovation. With 25 years of expertise, we address current issues to create future solutions. Our globally recognized EHR system is being developed to elevate health systems, enhance health results, provider contentment, and patient care overall.

Integrating AI streamlines provider schedules, leading to quicker consultations, early detection, and enhanced patient well-being. Through Intrahealth AI, you can extract meaningful information from both structured and unstructured clinical data for improved results and identify suitable patients for treatments in advance, promoting therapy advancements.

About Us

Intrahealth has been serving Canadian healthcare organizations for 20 years. We understand the complexity and diverse needs of health care delivery.

Our solutions provide public health agencies with a workflow-driven model to synchronize, analyze, and adapt to changing standards. This enables efficient task management, promotes evidence-based practices, enhances clinical decision-making, and reduces care variability.

In 2024 Intrahealth came under HEALWELL AI banner (TSX:AIDX) to further enhance our ability to deliver innovative solutions and create the EHR of tomorrow.
