Cloud EMR for Efficient Healthcare

Advanced Security Measures: Feel secure with Profile's advanced state-of-the-art security protocols, including encryption, multi-factor authentication, and access rules, ensuring compliance with stringent healthcare regulations.

Enhanced Collaboration: Break down silos and foster collaboration across your healthcare ecosystem. Profile's cloud platform facilitates seamless information sharing and collaboration among care teams, resulting in improved patient outcomes and satisfaction.

Optimal Scalability: Profile's cloud solutions provide unparalleled scalability, effortlessly adapting to your organization's evolving needs. Scale resources up or down as needed, ensuring optimal performance and cost-effectiveness.

Streamlined Interoperability: Seamlessly integrate with other healthcare systems and third-party applications, facilitating seamless data exchange and interoperability. Improve care coordination and patient outcomes through streamlined workflows and enhanced connectivity.

Secure Monitoring

Enhanced Collaboration

Optimal Scalability

Streamlined Interoperability

Peace of mind access to your data, anywhere and anytime

Cloud Migration Frequently Asked Questions

How does cloud migration impact patient care?

Cloud migration enhances patient care by providing anytime, anywhere access to patient information, facilitating seamless collaboration among care teams, and enabling data-driven decision-making. It also improves patient engagement and satisfaction through streamlined workflows and enhanced connectivity.

What is the process of migrating to the cloud with Intrahealth's Profile?

The process of migrating to the cloud with Intrahealth's Profile begins with a comprehensive assessment of your organization's needs and requirements. Our team works closely with you to develop a customized migration plan, ensuring minimal disruption to your operations. Once the migration is complete, we provide ongoing support and maintenance to ensure a smooth transition and optimal performance.

How does cloud migration impact IT management and maintenance?

Cloud migration simplifies IT management and maintenance by offloading hardware maintenance and software updates to the cloud provider. This reduces the burden on internal IT teams, freeing up resources to focus on strategic initiatives and innovation.

About Us

Intrahealth was founded in New Zealand, by New Zealand doctors. We have been serving the Community Health market in New Zealand for more than 25 years, and understand the diverse needs of health care delivery here.

We support health providers right through to enterprise regional solutions, comprising many thousands of users.

We've taken our New Zealand experiences to the world, and in 2024 Intrahealth came under the HEALWELL AI Company, to further enhancing our ability to deliver innovative solutions.
