

Thinking of retiring and want to manage data?

Your Data, Securely Retained in the Cloud

In today's regulatory environment, maintaining legal data compliance is critical. Profile Vault provides a secure, reliable solution to keep your data archived and accessible for compliance needs.

What is Profile Vault?

Profile Vault is a secure solution for healthcare providers to store patient data, especially after retirement. It ensures compliance with the legal responsibility to retain medical records without the burden of ongoing access. If you're transitioning to a new practice management system, Profile Vault offers reassurance that archived data is readily available for future inquiries.

How it Works?

Data is stored in a secure, encrypted "vault," accessible only when necessary. For access—whether for medico-legal questions or other needs—simply contact our team, and we'll securely retrieve the required information. Profile Vault is designed for intermittent access, ensuring both security and compliance. For reliable post-practice data storage, Profile Vault delivers the peace of mind you need.

Profile Vault

-  **Protect Your Data Storage**
-  **No Need To Worry About Upgrades**
-  **Easily Access Information**
-  **Meet Regulatory Requirements**
-  **Long-term Storage**
-  **Data Sovereignty**

-  **Back Up Solutions**
-  **Ease and Convenience**

22,000 +

providers served

20,000,000 +

patients across the world

Retire with ease knowing you've
got backed up data.

 Profile Vault

Profile Vault Features

- **Read-only Access:** Secure, read-only access to your archived data, ensuring data integrity and preventing unauthorized changes.
- **Advanced Encryption:** Your data is protected with advanced encryption both in transit and at rest.
- **Scalable Solutions:** Whether you need to retain a few gigabytes or multiple terabytes, Profile Vault scales to meet your needs.
- **Long-term Retention:** Flexible retention periods to meet your specific compliance requirements

Profile Vault Benefits

- **Ensure Compliance:** Stay compliant with data retention regulations and avoid penalties.
- **Protect Sensitive Information:** Use state-of-the-art security measures to keep your data safe.
- **Simplify Data Management:** Offload the complexity of managing archived data to our secure and reliable system.
- **Reduce Costs:** Lower your data management costs by using ProfileVault's cost-effective storage solutions.

About Us

Intrahealth has been serving global healthcare organizations for over 25 years. We understand the complexity and diverse needs of health care delivery.

Our solutions provide healthcare providers with a workflow-driven model to synchronize, analyze, and adapt to changing standards. This enables efficient task management, promotes evidence-based practices, enhances clinical decision-making, and reduces care variability.

In 2024 Intrahealth came under HEALWELL AI banner (TSX:AIDX) to further enhance our ability to deliver innovative solutions and create the EHR of tomorrow.
